

# REITS

## RENTAL EQUIPMENT & INVENTORY TRACKING SYSTEM

Rental Equipment & Inventory Tracking System (REITS) is an inventory control software program geared toward the mining industry. REITS features a central database along with a front-end web user interface for easy access, deployment, and updates. ESIS can be integrated with Active Directory to control access restrictions per user group.

## LISTINGS

Search and display inventory via searchable listings, categorized by regular, bulk, and consumable inventory items.

## FORMS

Display and maintain detailed item information via user-friendly web forms. Track status, important dates, rental rate schedules, documents, and more.

## OPERATIONS

Create and track rental and maintenance transactions with details such as quantity, locations, expected and actual release and return dates, assigned project and staff, clients, and more. Conveniently access all operational functions via the main ESIS web interface.

## RENTALS

Create rental orders containing multiple inventory items. Track rentals via searchable listings by order number, rental status, dates, etc.

## CHECK IN / CHECK OUT

Expedite rental release and return processes via Check-In and Check-Out screens with the help of a barcode scanner.

## ADMINISTRATION

Maintain tables of Projects, Contacts, Organizations, Inventory Categorization Groups, Locations, etc.

## BOOKINGS

Plan ahead by reserving items via Bookings. Book items from different locations.

## AUTOMATIC EMAIL NOTIFICATIONS

Configure email notifications for maintenance dates, quantities, booking creations, sample disposals, and more.

## SCHEDULE GRAPHS

View graphical schedules of current and upcoming rentals and bookings.

## REPORTS

View and print a variety of detail reports.

## DOCUMENTS AND FILES

Store documents and files for each item or a group of items. Files can include PDFs, photos, word documents, etc.

## BILLS

Automatically generate rental bills based on duration and rental rates specific to each inventory item.

## SAMPLES

Barcode incoming samples and schedule disposals and disposal reviews.
